SYMPLYAXON

AXON is a new family of USB 4 and Thunderbolt 5 -to- Ethernet adapters designed to meet user demands for greater transfer speeds and wider bandwidth connections to high-performance shared storage. AXON adapters provide an economical solution for users to achieve high-speed 10Gb and 25Gb Ethernet connectivity from laptops or workstations via a USB 4 or Thunderbolt 5 connection.

AXON is a compact and affordable USB 4-to-10GbE RJ45 adapter. USB 4 connectivity, backwards compatible to USB 3.0, provides easy plug-and-play functionality for connecting 10Gb Ethernet through an RJ45 interface to macOS, Windows and Linux computers.

AXON Features:

- (1) USB 4 Port*
- (1) 10Gb BASE-T RJ45 Port
- Bus Powered
- Light-weight
- SymplyLOCK compatible
- 2-Year Warranty
- Dimensions (DxWxH) 4.33" x 1.96" x 0.90"
  110mm x 50mm x 23mm

AXON XT provides the most compact form factor for a Thunderbolt 5 -to- 25Gb Ethernet adapter. Available with or without Optical SFP28 modules, AXON XT is backwards compatible to 10GbE, and includes a Thunderbolt 5 interface with inbuilt hub technology supporting device charging and SymplyLOCK compatibility. An optional rackmount supports multiple AXON XT adapters in 1RU, while an optional zero footprint mount is available for all-in-one computers.

AXON XT Features:

- (1) Thunderbolt 5 Host Port with Device Charging
- (2) Thunderbolt 5 Peripheral Ports
- (2) 25Gb Ethernet SFP28 Ports**
- Future Upgradable to 100GbE
- Locking External Power Supply
- SymplyLOCK compatible
- Optional Rackmount
- Optional Zero Footprint Mount for All-in-One computers (HP, Dell, Apple)
- 3-Year Warranty
- Dimensions (DxWxH) 5.70" x 4.13" x 1.49"
  145mm x 105mm x 38mm

*USB 4 port backwards compatible to USB 3.0
**AXON XT is available with or without Optical LC SFP28 modules
